

Curriculum Vitae

Personal Data

- **Name:** Raúl García Pedrosa
- **Date of birth:** 11 September 1991
- **Place of birth:** Villanueva del Trabuco, Malaga, Spain
- **Address:** Pavia Street 19,6ºC, Granada,18007, Spain
- **Mobile:** +34 652599733
- **Email:** rgarciapedrosa@gmail.com
- **Linkedin:** Raul Garcia Pedrosa
- **Github:** <https://github.com/raulG91>

Education

- **2009 – 2014:** IT Engineer, University of Granada, Granada, Spain

Work experience

- **December 2021 – Now:** Integration consultant/Integration lead and BTP developer at Sariba AS. During this period the work done could be categorized into three roles:
 - As **Integration lead**, I have conducted workshops with the customers to get all their necessities and propose the best integration scenarios for them. Also, during the implementation phase I supervised the work done for all workmates.
 - **Integration consultant:** As integration consultant I have used SAP Cloud Platform Integration and Workforce software as main technologies:
 - **SAP Cloud Platform Integration:** Implementing custom interfaces and using standard integrations provided by SAP.
 - **Workforce software:** Maintaining existing interfaces for all our customers.
 - **BTP developer:** From March 2024 I have been developing BTP APPs using the following technologies:
 - **UI5:** Used as frontend framework to create and maintain BTP applications
 - **SAP CAP:** Used as backend framework to create business logic for BTP applications.
- **February 2020 – December 2021:** Integration consultant at IN-RGY. During this period working as integration consultant the work done could be classified into the following categories:
 - **SAP Cloud Platform Integration:** Implementing custom interfaces and using standard integrations provided by SAP. The following list will include all the integrations done using CPI, standard and custom interfaces.
 - SAP SuccessFactors Employee Central Integration with Third Party Time Vendor-WorkForce Software (WFS).
 - SuccessFactors Employee Central to ERP Employee and Organizational Data (included CPI deploy and configuration in ERP or S4 Hana Cloud).
 - Custom interfaces between SuccessFactors and Workforce Software

- Custom interfaces between SuccessFactors and Active directory (file based) and between Active Directory and SuccessFactors.
 - Custom interfaces between SuccessFactors and Concur.
- **Workforce Software:** Working as Integration consultant for standard and custom interfaces supporting different customers. The following list includes some workforce interfaces used in this period.
 - Employee Import
 - Payroll Export
 - Time entry import
 - LD Import
 - Custom Imports and export
- **SAP HCM working as Abap developer:** reports, classes, smartforms, badis, user exits, idocs, etc.
- **April 2015 – February 2020:** Abap developer at NGA Human Resources, working with different HR modules (PA, OM, PY and eRecruiting), developing different functionalities as: Reports, Badis, User Exits, Webdynpro, module pool, smartform, etc), and working as integration consultant using Boomi, Cloud Platform Integration (CPI), Point-to-Point.
- **October 2014 – March 2015:** Internship in the Spanish Army (MADOC) working as web developer.

Languages

- **Spanish:** Mother tongue.
- **English:** B2 level certificated by University of Cambridge.
